Student Leadership Development

The Office of Student Leadership Development creates and coordinates leadership development opportunities for all UTSA students. The Student Leadership Center (SLC) serves as a centralized point of connection to leadership opportunities on campus and in the greater San Antonio community. SLC staff provide resource and referral consultation to individual students with the perspective that everyone has the potential to exercise leadership for positive change. Full time undergraduate students are invited to apply for selective acceptance to SLC programs, including The Civil Rights and Social Justice Experience, The LeaderShape Institute, The Texas Conference for Women and The Storytelling Series. Student Leadership Development coordinates the Leadership and Service Floor in partnership with Housing & Residence Life and Volunteer Services. Student Leadership Development also delivers an academic course open to all majors, EDU 3003 - Introduction to Leadership. This office is located in the University Center, first floor on the Paseo next to the C3 Store. More information on events and activities can be obtained by calling 210-458-7967 or visiting our website: Student Leadership Center (http://www.utsa.edu/slc).
