Department of Management Science and Statistics

Mission Statement
The mission of the Department of Management Science and Statistics is to offer both undergraduate and graduate educational programs that are of high quality and meet the changing needs of the global community; to provide a supportive learning environment for students; to foster the success of our students in their professional careers; and to create an academic environment that stresses excellence in teaching, intellectual contributions, and service. The Department contributes to the missions of the College and the University through research and education in the quantitative sciences. Theory and analysis are applied to a variety of interdisciplinary problems to discover new approaches for meeting the challenges of decision making in a global arena of expanding technology and information.

Department Information
The disciplines of Management Science and Statistics are integral to modern decision-making processes. These interdisciplinary fields emphasize the use of quantitative methods and computers for analyzing, understanding, visualizing, and interpreting data. Management Science seeks to provide a rational basis for decision analysis across a broad spectrum of business functions such as production/operations, marketing, finance, human resources, project management, logistics, and supply chain management. Statistical methods provide analytical tools for research in high-technology and biomedical industries, insurance, and government agencies. Both disciplines offer the opportunity to pursue advanced graduate studies. The Department of Management Science and Statistics offers a Bachelor of Business Administration degree in Management Science, a Bachelor of Business Administration degree in Actuarial Science, and a Bachelor of Science degree in Statistics. The department also offers minors in Actuarial Science, Adaptive Decision Models for Business, Statistics, and Management Science, which are open to all majors in the University. In addition, certificates are offered in Business Analytics, and Operations and Supply Chain Management.

Department Honors
The Department of Management Science and Statistics offers the opportunity for certain of its outstanding students to achieve the designation of Honors in Major and provides the opportunity for advanced study under close faculty supervision.

Selection for Honors designation is based on the student’s academic performance and recommendation by the Department Undergraduate Program Committee (UPC) in consultation with the faculty of the student’s major discipline. To be eligible for the designation, students must have a minimum overall grade point average of 3.0 at UTSA and a minimum grade point average of 3.5 in their major at UTSA. To graduate with the honors designation, these minimum grade point averages must be maintained. Students interested in this program should contact the Department of Management Science and Statistics office for additional information. Department honors can be attained independent of, or in addition to, University Honors. In order to have departmental honors noted on the transcript, students must submit a letter of request for departmental honors to the Department Chair by Census Date of their last semester.

- B.B.A. degree in Actuarial Science (p. 1)
- B.B.A. degree in Management Science (p. 3)
- B.S. degree in Statistics (p. 5)

Bachelor of Business Administration Degree in Actuarial Science
Actuarial Science is a discipline that uses mathematics and statistical models to assess and manage risk and to solve emerging financial and social problems. Graduates’ unique blend of analytical and business skills are especially valuable in the insurance and financial services industry. They apply their skills to calculations in life, health, social, and casualty insurance, annuities and pensions. Traditionally, they have been involved in developing probability tables for natural disasters, unemployment, etc. There is an increasing need for trained actuaries in the insurance industry. The Bachelor of Business Administration (B.B.A.) in Actuarial Science provides students the opportunity to acquire the quantitative and business skills to prepare them for a career as an actuary. The minimum number of semester credit hours for the B.B.A. degree in Actuarial Science is 120, at least 39 of which must be at the upper-division level.

All candidates seeking this degree must fulfill the Core Curriculum requirements, the Common Body of Knowledge (CBK) requirements, and the degree requirements, which are listed below.

Core Curriculum Requirements (42 semester credit hours)
Students seeking the B.B.A. degree in Actuarial Science must fulfill University Core Curriculum requirements. The two courses listed below satisfy both degree requirements and Core Curriculum requirements; however, if these courses are taken to satisfy both requirements, then students may need to take additional courses in order to meet the minimum number of semester credit hours required for the degree.

MAT 1214 should be used to satisfy the core requirement in Mathematics.
ECO 2023 should be used to satisfy the core requirement in Social and Behavioral Sciences.

All degrees in the College of Business require 120 hours. If students elect to take a course that satisfies both a Core and COB requirement, students may need to take an additional course to meet the 120 hours.

Core Curriculum Component Area Requirements (http://catalog.utsa.edu/undergraduate/bachelorsdegereeregulations/degreerequirements/corecurriculumcomponentarearequirements)

Common Body of Knowledge (CBK)

All students seeking a B.B.A. degree in the College of Business must complete the following Common Body of Knowledge (CBK) courses in addition to the Core Curriculum.

ACC 2013 Principles of Accounting I 3
ACC 2033 Principles of Accounting II 3
COM 1053 Business and Professional Speech 3
or COM 1063 Digital Business Communication
ECO 2013 Introductory Macroeconomics 3
ECO 2023 Introductory Microeconomics (satisfies Social and Behavioral Sciences Core Curriculum requirement) 3
FIN 2013 Principles of Business Finance 3
GBA 2013 Legal, Social and Ethical Issues in Business 3
IS 1403 Business Information Systems Fluency 3
IS 3003 Principles of Information Systems for Management 3
MAT 1033 Algebra with Calculus for Business (satisfies Mathematics Core Curriculum requirement, Actuarial Science majors must take MAT 1214 in lieu of MAT 1033) 3
MGT 3003 Business Communication and Professional Development 3
MGT 3013 Introduction to Organization Theory, Behavior, and Management 3
MKT 3013 Principles of Marketing 3
MS 1023 Business Statistics with Computer Applications I (Actuarial Science majors must take STA 3003 in lieu of MS 1023) 3
MS 3043 Business Statistics with Computer Applications II (Actuarial Science majors must take STA 3513 in lieu of MS 3043) 3
MS 3053 Management Science and Operations Technology 3
Note: Students must have earned at least 31 hours to enroll in any 3000 and 4000 level courses listed above.

In addition to the Core Curriculum requirements and requirements from the College of Business Common Body of Knowledge (CBK), all candidates for the degree must complete the following degree requirements.

Degree Requirements

A. Major Requirements 20
   MAT 1224 Calculus II
   MAT 2214 Calculus III
   STA 3523 Mathematical Statistics
   STA 4133 Introduction to Programming and Data Management in SAS
   STA 4713 Applied Regression Analysis
   STA 4753 Time-Series Analysis

B. Support Work in Major 12
   Select four courses from the following:

   FIN 4523 Introduction to Risk Management
   FIN 4813 Property-Liability Insurance Finance
   FIN 4823 Life and Health Insurance Finance
   MS 3073 Business Analytics
   STA 4233 Statistical Applications Using SAS Software
   STA 4643 Introduction to Stochastic Processes
   STA 4933 Internship in Statistics
   STA 4963 Actuarial Science Examination Preparation

Total Credit Hours 32

Course Sequence Guide for B.B.A. Degree in Actuarial Science

This course sequence guide is designed to assist students in completing their UTSA undergraduate business degree requirements. This is a term-by-term sample course guide. Students must satisfy other requirements in their catalog and meet with their academic advisor for an individualized degree plan. Progress within this guide depends upon such factors as course availability, individual student academic preparation, student time management, work obligations, and individual financial considerations. Students may choose to take courses during Summer terms to reduce course loads during long semesters.

Bachelor of Business Administration
Degree in Management Science

Solving problems and making decisions are integral parts of every organization's daily operations. The discipline of Management Science focuses on the development and application of scientific and mathematical modeling to aid organizations in making these decisions. Students will have the opportunity to develop and apply analytical models and to acquire essential computer skills necessary in the increasingly technical business environments. Many organizations hire management science majors for managerial positions because of their computing skills and problem-solving abilities. These skills are essential in business environments that are seeking increased efficiency and productivity. The focus of this degree is on applications and appropriate software with a view toward how a manager can effectively apply quantitative models to improve the decision-making process.

1 College of Business students should take MAT 1033 and ECO 2023 to satisfy both Core Curriculum and CBK requirements.

Bachelor of Science Degree in Statistics

Statistics is a science that deals with principles and procedures for obtaining and processing information in order to make decisions in the face of uncertainty. In particular, it deals with collection, organization, analysis, and interpretation of numerical information to answer questions in almost every aspect of modern-day life. Statistical methods are used to address complex questions common in business, government, and science. Employers such as research divisions in pharmaceutical companies, clinical research units at medical centers, quality control or reliability departments in manufacturing companies, corporate planning and financial analysis units, and government agencies require persons with advanced quantitative skills.

The Bachelor of Science (B.S.) degree in Statistics provides students with access to such skills preparing them for careers as statistical analysts or for further graduate academic training. The minimum number of semester credit hours required for the Bachelor of Science degree in Statistics is 120, at least 39 of which must be at the upper-division level.

Core Curriculum Requirements (42 semester credit hours)

Students seeking the B.S. degree in Statistics must fulfill University Core Curriculum requirements. The courses listed below satisfy both degree requirements and Core Curriculum requirements; however, if these courses are taken to satisfy both requirements, then students may need to take additional courses in order to meet the minimum number of semester credit hours required for this degree.

MAT 1214 should be used to satisfy the core requirement in Mathematics. ECO 2023 should be used to satisfy the core requirement in Social and Behavioral Sciences.

All degrees in the College of Business require 120 hours. If students elect to take a course that satisfies both a Core and COB requirement, students may need to take an additional course to meet the 120 hours.

Degree Requirements

A. Required courses in the computational and mathematical sciences 15
MAT 1214 Calculus I
MAT 1224 Calculus II
MAT 2214 Calculus III
MAT 2233 Linear Algebra

B. Courses required for the major 39
1. Required Statistics courses:
   STA 3003 Applied Statistics
   STA 3013 Multivariate Analysis for the Life and Social Sciences
   STA 3313 Experiments and Sampling
   STA 3513 Probability and Statistics
   STA 4133 Introduction to Programming and Data Management in SAS
   STA 4233 Statistical Applications Using SAS Software
   STA 4713 Applied Regression Analysis
   STA 4723 Introduction to the Design of Experiments
2. Select four of the following:
   MS 3073 Business Analytics
   MS 4363 Quality Management and Control
   STA 3813 Discrete Data Analysis
   STA 4143 Data Mining
   STA 4643 Introduction to Stochastic Processes
   STA 4753 Time-Series Analysis
   STA 4903 Applied Survival Analysis
   STA 4933 Internship in Statistics

C. Electives in disciplines where statistics is actively applied and practiced 18
1. Specialization in Actuarial Science:
   ACC 2013 Principles of Accounting I
   ECO 2013 Introductory Macroeconomics
   ECO 2023 Introductory Microeconomics
   FIN 3013 Principles of Business Finance
   FIN 3023 Intermediate Corporate Finance
   or FIN 4873 Computer Modeling of Financial Applications
   STA 4963 Actuarial Science Examination Preparation

2. Specialization in Biology:
   BIO 2313 Genetics
   BIO 3283 Principles of Ecology
   BIO 3323 Evolution
   BIO 3333 Plants and Society
   BIO 3433 Neurobiology
   BIO 4033 Conservation Biology

3. Specialization in Business:
   ECO 3123 Introduction to Econometrics and Business Forecasting
   MKT 3083 Marketing Research
   MS 3063 Decision Support Systems
   MS 4313 Six Sigma and Lean Operations
   MS 4343 Production/Operations Management
   MS 4363 Quality Management and Control

4. Specialization in Education:
   BBL 3403 Cultural and Linguistic Equity for Schooling
   EDP 3203 Learning and Development in the Secondary School Adolescent
   EDU 2103 Social Foundations for Education in a Diverse U.S. Society
   ESL 3023 Second Language Teaching and Learning in EC–6
   IDS 2013 Introduction to Learning and Teaching in a Culturally Diverse Society
   SPE 3603 Introduction to Special Education

5. Specialization in Mathematics:
   MAT 2233 Linear Algebra
   MAT 3213 Foundations of Analysis
   MAT 3223 Complex Variables
   MAT 3613 Differential Equations I
   MAT 3633 Numerical Analysis
   MAT 4213 Real Analysis I

6. Specialization in Psychology:
   PSY 1013 Introduction to Psychology
   PSY 2503 Developmental Psychology
   PSY 3403 Experimental Psychology
   PSY 3413 Experimental Projects and Laboratory
   Two additional psychology courses at the 3000 or 4000 level

7. Specialization in Social Sciences:
   SOC 1013 Introduction to Sociology
   SOC 3223 Population Dynamics and Demographic Techniques
   SOC 3323 Introduction to Social Research
   SOC 3373 Qualitative Research Methods
   SOC 3393 Quantitative Research Methods
   One additional sociology course at the 3000 or 4000 level

D. Lower-division or upper-division business or non-business electives 6
Select 6 semester credit hours of lower-division or upper-division business or non-business electives.

Total Credit Hours 78
Nine (9) semester credit hours must be upper division. The department has given pre-approval to the following plans of study for specializations in actuarial science, biology, business, education, mathematics, psychology, and social sciences. Other specialization plans and the relevant courses may be submitted for approval to the designated statistics faculty member.

**Course Sequence Guide for B.S. Degree in Statistics**

This course sequence guide is designed to assist students in completing their UTSA undergraduate business degree requirements. This is a term-by-term sample course guide. Students must satisfy other requirements in their catalog and meet with their academic advisor for an individualized degree plan. Progress within this guide depends upon such factors as course availability, individual student academic preparation, student time management, work obligations, and individual financial considerations. Students may choose to take courses during Summer terms to reduce course loads during long semesters.

Total Credit Hours: 120.0

1. Students must take Math Placement Test to register for MAT 1214. Beginning math course will be determined by Math Placement Test scores.

2. STA 3003 is prerequisite for courses listed under Part B of Degree Requirements.

- Minor in Actuarial Science (p. 7)
- Minor in Adaptive Decision Models for Business (p. 8)
- Minor in Statistics (p. 8)
- Minor in Management Science (p. 8)

**Minor in Actuarial Science**

The Minor in Actuarial Science is open to all majors in the University. All students pursuing the minor must complete 18 semester credit hours.

Total Credit Hours: 18

To declare a Minor in Actuarial Science, obtain advice, and seek approval of substitutions for course requirements, students must consult with their academic advisor.
Minor in Adaptive Decision Models for Business

The Minor in Adaptive Decision Models for Business is open to all majors in the University. All students pursuing the minor must complete 18 semester credit hours.

A. Course option 3

Select one of the following:

- CS 3333 Mathematical Foundations of Computer Science
- ME 3113 Measurements and Instrumentation
- MS 3053 Management Science and Operations Technology

B. Additional courses 6

- ACC 2013 Principles of Accounting I
- FIN 3003 Survey of Finance or FIN 3013 Principles of Business Finance

C. Models 6

Select 6 semester credit hours of the following:

Analytical Models
- MS 3063 Decision Support Systems
- MS 3073 Business Analytics
- MS 3313 Business Applications of Statistics
- MS 4323 Simulation Applications in Business
- MS 4333 Project Management
- MS 4383 Applied Forecasting in Operations

Operational Models
- MS 3403 Logistics Management
- MS 3413 Purchasing and Inventory Management
- MS 4313 Six Sigma and Lean Operations
- MS 4343 Production/Operations Management
- MS 4353 Service Operations Management
- MS 4363 Quality Management and Control
- MS 4543 Supply Chain Management

D. Upper-division electives 3

Select 3 semester credit hours of upper-division electives in disciplines where quantitative methods are actively applied and practiced. These courses should be approved by the designated management science faculty member.

Total Credit Hours 18

To declare a Minor in Statistics, obtain advice, and seek approval of substitutions for course requirements, students must consult with their academic advisor or the designated statistics faculty member.

Minor in Management Science

The Minor in Management Science is open to all majors in the University. All students pursuing the minor must complete 18 semester credit hours.

A. Required courses 6

- MS 3053 Management Science and Operations Technology
- MS 4343 Production/Operations Management

B. Select four of the following courses 12

- ECO 3123 Introduction to Econometrics and Business Forecasting
- FIN 4523 Introduction to Risk Management
- FIN 4873 Computer Modeling of Financial Applications
- MKT 3083 Marketing Research
- MS 3063 Decision Support Systems
- MS 3073 Business Analytics
- MS 3313 Business Applications of Statistics
- MS 3403 Logistics Management
- MS 3413 Purchasing and Inventory Management
- MS 4313 Six Sigma and Lean Operations
- POL 2703 Quantitative Methods in Political Science
- PSY 2073 Statistics for Psychology

3. Option 3

- MS 1023 Business Statistics with Computer Applications I
- MS 3043 Business Statistics with Computer Applications II

4. Option 4

- STA 2003 Applied Probability and Statistics for Engineers
- STA 3513 Probability and Statistics

Total Credit Hours 18

To declare a Minor in Statistics, obtain advice, and seek approval of substitutions for course requirements, students must consult with their academic advisor or the designated statistics faculty member.
Certificate in Business Analytics

The Business Analytics certificate is designed to prepare business students with a foundational knowledge in analytics. It certifies to employers that students awarded the certificate have completed coursework that will help them understand different forms of analytics (descriptive, predictive, and prescriptive) and the methods used in each. Moreover, this certificate program will help students learn cutting-edge techniques to sift through large volumes of data and understand how analytics can help improve decisions throughout an organization.

To earn a Business Analytics certificate, students must earn 15 semester credit hours as follows:

<table>
<thead>
<tr>
<th>A. Required courses</th>
<th>9</th>
</tr>
</thead>
<tbody>
<tr>
<td>MS 3073 Business Analytics</td>
<td></td>
</tr>
<tr>
<td>STA 4133 Introduction to Programming and Data Management in SAS</td>
<td></td>
</tr>
<tr>
<td>STA 4233 Statistical Applications Using SAS Software</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>B. Select one of the following</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>MS 3063 Decision Support Systems</td>
<td></td>
</tr>
<tr>
<td>STA 4143 Data Mining</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>C. Select one of the following</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>MS 3133 Business Applications of Statistics</td>
<td></td>
</tr>
<tr>
<td>STA 3013 Multivariate Analysis for the Life and Social Sciences</td>
<td></td>
</tr>
</tbody>
</table>

Total Credit Hours 15

To apply for the Business Analytics Certificate, students should consult with Department of Management Science and Statistics for specific information about certificate requirements and consult with their academic advisors to verify that they have met all university requirements as specified in chapter 2 (http://catalog.utsa.edu/undergraduate/certificateprograms) of this catalog. All courses used to satisfy the requirements of this undergraduate certificate program must be college-level courses taken at UTSA.

Certificate in Operations and Supply Chain Management

This certificate is designed to prepare business students with a foundational knowledge in operations and supply chain management (OSCM). It certifies to employers that students awarded the certificate have completed coursework that will help them understand a myriad of issues, challenges, problems, and decision tools that relate to the internal and external flow of materials and requisite knowledge. Production/operations management, logistics management, and procurement topics are included to resolve the myriad of complex problems facing organizations. Moreover, this certificate program will help students learn cutting-edge techniques and best practices to leverage their operations and supply chain complexities to achieve competitive advantage.

To earn an Operations and Supply Chain Management Certificate (OSCM), students must earn 15 semester credit hours as follows:

<table>
<thead>
<tr>
<th>A. Required courses</th>
<th>6</th>
</tr>
</thead>
<tbody>
<tr>
<td>MS 3403 Logistics Management</td>
