DEPARTMENT OF EDUCATIONAL PSYCHOLOGY

Mission Statement
The mission of the Department of Educational Psychology is to promote the development and application of scientific knowledge. To do so, our faculty members are committed to: producing high-quality, innovative research and scholarship; providing effective and culturally inclusive instructional methods to prepare diverse practitioners and researchers to use the tools, resources, and strategies necessary to improve the educational experience of all learners; preparing culturally competent scientist-practitioners and researchers to effectively contribute to the applied psychological development and well-being of individuals across the lifespan; providing responsive educational and psychological services to the local community, schools, and beyond; engaging in participatory and leadership roles in local, national, and international institutions and organizations.

The Department of Educational Psychology faculty provide valuable support to other departments and program areas within the College of Education and Human Development and throughout the University by teaching courses based on foundation educational psychology concepts in areas such as learning, motivation, development, assessment, and research methods. At this time, the Department of Educational Psychology offers three graduate degrees: the Master of Arts degree in Educational Psychology (with two areas of concentration), the Master of Arts degree in School Psychology and the Master of Science degree in Behavior Analysis. The Department also offers three graduate certificates: Certificate in Applied Behavior Analysis, Certificate in Language Acquisition and Bilingual Psychoeducational Assessment, and Certificate in Program Evaluation.

Criminal History Policy and Acknowledgement
The College of Education and Human Development (COEHD) prepares educators and professionals for fields which require fieldwork, internship, practicum, service-learning and/or clinical teaching. Placements occur in educational, clinical, health care facilities, hospitals, and/or medical settings which require a criminal background check. The University of Texas at San Antonio is required to inform students of the requirements set forth by the Texas Occupation Code, Chapter 53, Sections 53.001 through 53.105 (http://www.texas-statutes.com/occupations-code/chapter-53-consequences-of-criminal-conviction/).

All COEHD prospective students in a licensure or certification program are required to acknowledge that they have been made aware of these requirements and that they have read the COEHD Criminal History Policy. For more information and for completing the acknowledgement form, please visit the Office of Professional Preparation, Assessment, and Accreditation in the College of Education and Human Development.

Master of Arts Degree in Educational Psychology
The Master of Arts (M.A.) degree in Educational Psychology aims to prepare culturally competent scientist-practitioners and researchers to effectively contribute to the applied psychological development and well-being of children and adolescents. Students receive the preparation and training necessary to provide responsive educational and psychological services to the local community, schools, and beyond and to engage in participatory and leadership roles in local, national, and international institutions and organizations.

The M.A. in Educational Psychology offers two areas of concentration from which students can choose based on their professional goals and interests, each of which prepares students for career-specific applications of the degree. The degree coursework provides students with a strong foundation in Educational Psychology theory and principles as well as the skills to apply this learning to relevant contexts (e.g., educational settings, clinic settings, community settings, industrial/organizational settings, home settings). Students who wish to complete an intensive research project have the option of completing a Master’s Thesis for 6 semester credit hours.

Program Admission Requirements
The number of students admitted to this program may be limited, and admission may be competitive. Admission to the program is based on the following criteria:

1. Applicants must provide official transcripts indicating a Bachelor’s degree from a regionally accredited college or university in the United States, preferably in a related field such as Psychology or Education, or show proof of equivalent training at a foreign institution.

2. Acceptance to the M.A. program is contingent on having a grade point average (GPA) of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the baccalaureate degree, as well as in all graduate-level coursework taken (if applicable).

Applicants who do not meet University-wide requirements for unconditional admission may be admitted conditionally if scores from the Graduate Record Exam (GRE), letter of recommendation, and/or previous work in the field provide evidence of academic potential. These conditional admission decisions will be made on a case-by-case basis using criteria established by the department faculty.

3. Applicants must submit an official score on the Graduate Record Examination (GRE; including the Verbal Reasoning, Quantitative Reasoning, and Analytical Writing tests). GRE scores cannot be more than five years old. There is not a cutoff score for the GRE tests; rather, scores on these tests will be balanced with GPA and other criteria. Individuals applying for the Behavior Analysis Concentration—Focused Flexible option—may petition the ABA program coordinator to have the GRE admissions requirements waived.

4. International applicants whose native language is not English must submit an official score on either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Minimum scores include a score of at least 60 on the TOEFL paper version, at least 79 on the TOEFL Internet version, or at least 6.5 on the IELTS.

5. Applicants must provide two letters of recommendation from professional references. Appropriate sources of letters include professors, supervisors, employers, and similar individuals with whom the applicant has a professional relationship. Letters should not include
be submitted from personal references such as friends or family members. These letters should specifically address the applicant's academic and/or professional skills, and potential to succeed in a rigorous graduate program.

6. Applicants must prepare a Statement of Purpose (approximately 500 words) which outlines the applicant's (1) reasons for pursuing the M.A. degree in Educational Psychology, (2) area of concentration they are most interested in, (3) experiences relevant to the concentration they are most interested in, and (4) career plans.

7. Applicants who lack appropriate academic background in Psychology, Education, or a closely related field may be admitted conditionally and specific leveling coursework may be required to address areas of deficiency. The hours of coursework required will be determined on a case-by-case basis between the student and the student's advisor.

Interested persons should contact the Student Development Specialist for the Educational Psychology program or check the website for more information.

Criminal History Policy and Acknowledgement
The College of Education and Human Development (COEHD) prepares educators and professionals for fields which require fieldwork, internship, practicum, service-learning and/or clinical teaching. Placements occur in educational, clinical, health care facilities, hospital, and/or medical settings which require a criminal background check. The University of Texas at San Antonio is required to inform you of the requirements set forth by the Texas Occupation Code, Chapter 53, Sections 53.001 through 53.105 (http://www.texas-statutes.com/occupations-code/chapter-53-consequences-of-criminal-conviction/).

All COEHD prospective students in a licensure or certification program are required to acknowledge that they have been made aware of these requirements and that they have read the COEHD Criminal History Policy. For more information and for completing the acknowledgement form, please visit the Office of Professional Preparation, Assessment, and Accreditation in the College of Education and Human Development.

Degree Requirements
Candidates for the M.A. degree in Educational Psychology must earn a minimum of 36 semester credit hours. Students must pass a comprehensive examination toward the end of their formal coursework. The examination may be repeated, but students must be registered for coursework at UTSA during the semester in which they take the exam. Thus, students who have finished all of their required coursework but have not passed the comprehensive examination must register for EDP 6961 Comprehensive Examination during the semester in which they take the exam.

The M.A. in Educational Psychology has two areas of concentration, and students choose their concentration based on their academic and professional goals and interests. The curriculum for each concentration will be presented separately.

Concentration in Behavior Analysis
This concentration aims to provide students with a foundation in behavior analysis and prepare students to sit for the Behavior Analyst Certification Exam (BCBA®) (https://www.bacb.com/bcba/) to obtain national certification and state licensure as a Behavior Analyst. Students will obtain competency in the basic principles of learning with an emphasis on treating children, youth, and adults in community, clinic, hospital, and as consultants in educational settings. The degree program prepares graduates for eligibility to become Board Certified Behavior Analysts (BCBA®) through approved coursework and practicum opportunities. Typical clients include students diagnosed with developmental or other disabilities that can impact prosocial skill development (e.g., Autism, Emotional Disturbance, Conduct Disorder, Obsessive Compulsive Disorder, Phobias) as well as people without disabilities who need systematic support in the development of prosocial skills and behaviors. Certified behavior analysts at the master's level work in a variety of settings as independent practitioners or contracted employees for an organization (e.g., public school, preschool, private school, clinic, hospital). The educational objectives of this concentration are commensurate with professional competence and certification requirements as currently reflected by professional standards of the Behavior Analyst Certification Board.

There are two options within the concentration. The first option (Comprehensive Program) meets face-to-face on campus for most activities. It contains all of the coursework required by the Behavior Analysis Credentialing Board. It also embeds the 2,000 experience hours through fieldwork, practice, and research experiences supervised by UTSA faculty. Students completing the comprehensive option will complete their hours at UTSA approved sites. Students in the Comprehensive Program will also have a formal review halfway through their program to identify their fitness to enter Practicum and continue in the Comprehensive Program.

The second option (Focused Flexible Program) allows for flexible attendance options (online, hybrid, and/or face-to-face attendance). It also contains all of the coursework required by the Behavior Analysis Credentialing Board. Students in this sequence may also complete their experience hours during their program, however the site is typically chosen by the student. The second option does not have any research requirements although students are encouraged to discuss with their advisor if they are interested in research. Once students have begun coursework in the Focused Flexible Program, they cannot transfer to the Comprehensive Program without approval by the ABA coordinator. This will be assessed on a case-by-case basis.

Students may choose other elective courses with faculty approval.

Total Credit Hours 36

Elective coursework may also be determined based on the student's program of study and in consultation with assigned advisor. Students may elect to take courses from relevant departments throughout COEHD (i.e. Bilingual Bicultural Studies, Counseling, Educational Leadership and Policy Studies, Educational Psychology, and/or Interdisciplinary Learning and Teaching) and UTSA (e.g., including but not limited to Psychology, Sociology, and Public Policy). While students may add the ABA certificate to their program, they may not use their master's degree electives to obtain the certificate. Students may opt to do a master's thesis and earn credits as part of their elective options.

EDP 6983 Master's Thesis (Permission of the Graduate Advisor of Record and thesis director required. Thesis research and preparation. 6 SCH required. May be repeated for credit, but no more than 6 hours will apply to the Master's degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress.)

Total Credit Hours 36

Standards and Procedures

Each area of concentration of the M.A. in Educational Psychology has academic and professional standards that must be met in order to progress in the program. These standards will be provided by the Graduate Advisor of Record, the student's advisor, and/or the Student Development Specialist. Successful completion of the program is contingent upon satisfactory scholastic performance, demonstration of the ability to apply knowledge and skills, and demonstration of professional and ethical behaviors consistent with relevant professional associations (e.g., American Psychological Association, Behavior Analyst Certification Board).

It is the duty of faculty members in the Educational Psychology program to evaluate all students according to these standards in all settings in which faculty members and students interact, including classes, practicum sites, advising, and supervision. It is expected that students will respond to evaluations, formal or informal, in appropriate ways and will attempt to conform to professional standards as explained to them.

Admission to the program does not guarantee fitness to remain in the program to completion. Only those students who consistently meet program standards will be allowed to continue in the program. If and when a student is judged not to meet program standards sufficiently to be allowed to provide behavioral, educational, evaluation, or psychological services to others, that student will be removed from continuation in the program. Students in the Applied Educational Psychology and Behavior Assessment and Intervention concentrations will be subject to the department's Fitness to Practice Policy, as described in the Program Handbook.

Further, many school districts and clinic settings require a criminal history review/criminal background check before allowing university students to complete field-based experiences at their sites. If a student is unable to obtain a field-based placement (e.g., practicum placement) due to results of a criminal history review/criminal background check, that student will not be able to meet the Educational Psychology program's requirements. If a student cannot complete course-required field work because of their criminal history, the student will be required to withdraw from the course. The student may retake the course if and when the criminal history changes, allowing them to be cleared by the site. If the offense is one that will preclude any further field work, the student will be dismissed from the Educational Psychology program. A student's criminal history also may affect their ability to obtain licensure or
certification. Students, and prospective students, who have concerns about their criminal history should consult the relevant licensing board (e.g., BCCB, TSBEP) to help determine whether this history would impact the prospective applicant’s ability to secure licensure with the board. This will allow students to make informed decisions about their educational and professional goals. For example, for applicants intending to pursue ABA board certification (e.g., BCBA, BcbaA), the Texas Department of Licensing and Regulation (TDLR (https://www.tdlr.texas.gov/)) oversees occupational licenses. TDLR will conduct and provide a criminal history evaluation (https://www.license.state.tx.us/crimconvict.htm).

Only two courses with a grade of “C” (defined as grades of “C” or “C+”) will be accepted toward this degree. A minimum of a 3.0 grade point average will be required for graduation. Those students who obtain more than two grades of “C” will be required to complete a remediation plan (i.e., retaking appropriate coursework and/or taking other coursework as deemed necessary by the student’s advisor and Graduate Advisor of Record). Students on academic probation or not in good academic standing will not be permitted to enroll in Practicum courses. Further, students must earn a grade of “B” or better in all Practicum courses.

Master of Arts Degree in School Psychology

The Master of Arts (M.A.) degree in School Psychology includes advanced coursework and field-based experiences related to psychological assessment, counseling, consultation, learning, development, child psychopathology, research, statistics, and professional issues. Students will also complete a full-time internship in a school setting. The program is designed to provide the academic and practical training necessary to become a Licensed Specialist in School Psychology by the Texas State Board of Examiners of Psychologists. Graduates will also be eligible to apply for certification as a Nationally Certified School Psychologist, which is a nationally-recognized professional certification granted by the National Association of School Psychologists. Due to the clinical nature of this program and number of hours required, the degree does not have a Thesis option.

Criminal History Policy and Acknowledgement

The College of Education and Human Development (COEHD) prepares educators and professionals for fields which require fieldwork, internship, practicum, service-learning and/or clinical teaching. Placements occur in educational, clinical, health care facilities, hospital, and/or medical settings which require a criminal background check. The University of Texas at San Antonio is required to inform you of the requirements set forth by the Texas Occupation Code, Chapter 53, Sections 53.001 through 53.105 (http://www.texas-statutes.com/occupations-code/chapter-53-consequences-of-criminal-conviction/).

All COEHD prospective students in a licensure or certification program are required to acknowledge that they have been made aware of these requirements and that they have read the COEHD Criminal History Policy. For more information and for completing the acknowledgement form, please visit the Office of Professional Preparation, Assessment, and Accreditation in the College of Education and Human Development.

Program Admission Requirements

The M.A. in School Psychology is designed for students who aspire to practice psychology in educational settings. The number of students admitted to this program may be limited, and admission may be competitive. Admission to the program is based on the following criteria:

1. Applicants must provide official transcripts indicating a Bachelor’s degree in Psychology, Special Education, Curriculum & Instruction, Sociology, or closely related field from a regionally accredited college or university in the United States, or show proof of equivalent training at a foreign institution.

2. Acceptance to the M.A. program is contingent on having a grade point average (GPA) of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the baccalaureate degree, as well as in all graduate-level coursework taken (if applicable). Applicants who do not meet University-wide requirements for unconditional admission may be admitted conditionally if scores from the Graduate Record Exam (GRE), letter of recommendation, and/or previous work in the field provide evidence of academic potential. These conditional admission decisions will be made on a case-by-case basis using criteria established by the departmental faculty.

3. Applicants must submit an official score on the Graduate Record Examination (GRE; including the Verbal Reasoning, Quantitative Reasoning, and Analytical Writing tests). GRE scores cannot be more than five years old. Applicants must obtain a minimum score of 3.5 on the Analytical Writing test. There is not a cutoff score for the Verbal Reasoning or Quantitative Reasoning tests; rather, scores on these tests will be balanced with GPA and other criteria.

4. Applicants whose native language is not English must submit an official score on either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Minimum scores include a score of at least 60 on the TOEFL paper version, at least 79 on the TOEFL Internet version, or at least 6.5 on the IELTS.

5. Applicants must provide two letters of recommendation from professional references. Appropriate sources of letters include professors, supervisors, employers, and similar individuals with whom the applicant has a professional relationship. Letters should not be submitted from personal references such as friends or family members. These letters should specifically address the applicant’s academic and/or professional skills, and potential to succeed in a rigorous graduate program.

6. Applicants must prepare a Statement of Purpose (approximately 500 words) which outlines the applicant’s (1) reasons for pursuing the M.A. degree in School Psychology, (2) experiences relevant to the field of psychology or education, and (3) career plans.

7. Applicants who lack appropriate academic background in psychology or a closely related field may be admitted conditionally, and specific leveling coursework will be required to address areas of deficiency. The hours of coursework required will be determined on a case-by-case basis between the student and the student’s advisor and this coursework must be completed within the first year of study.

Please note: In addition to the importance of applicants’ other test scores and performance in undergraduate coursework, selection decisions will be strongly influenced by applicants’ writing ability as demonstrated by their Statement of Purpose and score on the GRE Analytical Writing test. Demonstration of writing skills is especially important because success in the field of School Psychology largely depends on these skills, and students will be required to complete a significant amount of writing throughout the School Psychology curriculum.

Degree Requirements

Candidates for the Master of Arts degree in School Psychology must earn a minimum of 66 semester credit hours. Students must pass a comprehensive written examination toward the end of their formal
coursework. The examination may be repeated, but students must be registered for coursework at UTSA during the semester in which they take the exam. Thus, students who have finished all of their required coursework but have not passed the comprehensive examination must register for EDP 6961 Comprehensive Examination during the semester in which they take the exam. The faculty have adopted a policy that requires all school psychology students to take and pass the Praxis II (needed for application to become a Licensed Specialist in School Psychology and a Nationally Certified School Psychologist) as an objective measure of their knowledge specific to the practice of school psychology.

The following 66 semester credit hours of coursework are required for all students in the School Psychology program:

Total Credit Hours 66

**Standards and Procedures**

In order to complete the M.A. in School Psychology and to be eligible to take certification or licensing examinations, students must:

- Maintain scholastic performance, at a level that meets or exceeds department standards
- Demonstrate the acquisition of, and ability to apply, skills necessary to work effectively with persons and systems having diverse needs
- Demonstrate professionalism in their interactions with others
- Conform with the codes of ethics of relevant professional associations in psychology (e.g., National Association of School Psychologists, American Psychological Association) in addition to the ethical and legal regulations relevant to the practice of psychology in the State of Texas (e.g., Texas Administrative Code, Rules and Regulations of the Texas State Board of Examiners of Psychologists)

It is the duty of faculty members in the School Psychology program to evaluate all students according to these standards in all settings in which faculty members and students interact, including classes, practicum and internship sites, advising, and supervision. It is expected that students will respond to evaluations, formal or informal, in appropriate ways and will attempt to conform to professional standards as explained to them.

Admission to the program does not guarantee fitness to remain in the program to completion. Only those students who consistently meet program standards will be allowed to continue in the program. If and when a student is judged not to meet program standards sufficiently to be allowed to provide psychological services to others, that student will be removed from continuation in the program.

Many school districts require a criminal history review/criminal background check before allowing university students to complete field-based experiences on their campuses. If a student is unable to obtain a field-based placement (e.g., practicum or internship placement) due to results of a criminal history review/criminal background check, that student will not be able to meet the School Psychology program’s requirements. If a student cannot complete course-required field work because of their criminal history, the student will be required to withdraw from the course. The student may retake the course if and when the criminal history changes, allowing them to be cleared by the school district. If the offense is one that will preclude any further field work, the student will be dismissed from the School Psychology program.

A student’s criminal history also may affect their ability to obtain licensure. The Texas State Board of Examiners of Psychologists (TSBEP (https://www.tsbep.texas.gov/)) will conduct a preliminary evaluation of a prospective applicant’s criminal history to determine whether this history would impact their ability to secure licensure with the Board (https://www.tsbep.texas.gov/how-to-become-licensed/). Students, and prospective students, who have concerns about their criminal history should take advantage of this preliminary review so that they can make informed decisions about their educational and professional goals.

Only one course with a grade of “C” (defined as grades of “C” or “C+”) will be accepted toward this degree. A minimum of a 3.0 grade point average will be required for graduation. Those students who obtain more than one grade of “C” will be put on probation and may be required to complete appropriate remedial work.

**Master of Science Degree in Behavior Analysis**

The Master of Science (M.S.) degree in Behavior Analysis aims to prepare graduate students to become scientist-practitioners trained to provide quality, impactful services for all populations benefiting from behavior analysis. This degree aims to provide students with a foundation in behavior analysis and prepare students to sit for the Behavior Analyst Certification Exam (BCBA® (https://www.bacb.com/bcba/)) to obtain national certification and state licensure as a Behavior Analyst. Students will obtain competency in the basic principles of learning with an emphasis on treating children, youth, and adults in community, clinic, hospital, and as consultants in educational settings. The degree program prepares graduates for eligibility to become Board Certified Behavior Analysts (BCBA®) through approved coursework and practicum opportunities. Typical clients include individuals diagnosed with developmental or other disabilities that can impact prosocial skill development (e.g., Autism, Emotional Disturbance, Conduct Disorder,
Obsessive Compulsive Disorder, Phobias) as well as people without disabilities who need systematic support in the development of prosocial skills and behaviors. Certified behavior analysts at the master's level work in a variety of settings as independent practitioners or contracted employees for an organization (e.g., public school, preschool, private school, clinic, hospital). The educational objectives of this degree are commensurate with professional competence and certification requirements as currently reflected by professional standards of the Behavior Analyst Certification Board.

Program Admission Requirements
The number of students admitted to this program and/or concentrations may be limited, and admission may be competitive. Admission to the program is based on the following criteria:

1. Applicants must provide official transcripts indicating a Bachelor's degree from a regionally accredited college or university in the United States, preferably in a related field such as Psychology or Education, or show proof of equivalent training at a foreign institution.

2. Acceptance to the M.S. program is contingent on having a grade point average (GPA) of at least 3.0 (on a 4.0 scale) in the last 60 semester credit hours of coursework for the baccalaureate degree, as well as in all graduate-level coursework taken (if applicable). Applicants who do not meet University-wide requirements for unconditional admission may be admitted conditionally based on letters of recommendation, and/or previous work in the field provide evidence of academic potential. These conditional admission decisions will be made on a case-by-case basis using criteria established by the department faculty.

3. International applicants whose native language is not English must submit an official score on either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Minimum scores include a score of at least 60 on the TOEFL paper version, at least 79 on the TOEFL Internet version, or at least 6.5 on the IELTS.

4. Applicants must provide two letters of recommendation from professional references. Appropriate sources of letters include professors, supervisors, employers, and similar individuals with whom the applicant has a professional relationship. Letters should not be submitted from personal references such as friends or family members. These letters should specifically address the applicant’s academic and/or professional skills, and potential to succeed in a rigorous graduate program.

5. Applicants must prepare a Statement of Purpose (approximately 500 words) which outlines the applicant’s (1) reasons for pursuing the M.S. degree in Behavior Analysis, (2) area of concentration they are most interested in (i.e., Comprehensive or Focused), (3) experiences relevant to the concentration they are most interested in, and (4) career plans.

6. Applicants who lack appropriate academic background in Psychology, Education, or a closely related field may be admitted conditionally, and specific leveling coursework may be required to address areas of deficiency. The hours of coursework required will be determined on a case-by-case basis between the student and the student’s advisor.

Interested persons should contact the Student Development Specialist for the Educational Psychology program or check the website for more information.

Criminal History Policy and Acknowledgement
The College of Education and Human Development (COEHD) prepares educators and professionals for fields which require fieldwork, internship, practicum, service-learning and/or clinical teaching. Placements occur in educational, clinical, health care facilities, hospital, and/or medical settings which require a criminal background check. The University of Texas at San Antonio is required to inform you of the requirements set forth by the Texas Occupation Code, Chapter 53, Sections 53.001 through 53.105 (https://statutes.capitol.texas.gov/docs/oc/htm/oc.53.htm).

All COEHD prospective students in a licensure or certification program are required to acknowledge that they have been made aware of these requirements and that they have read the COEHD Criminal History Policy. For more information and for completing the acknowledgement from, please visit the Office of Professional Preparation, Assessment, and Accreditation in the College of Education and Human Development.

Degree Requirements
Candidates for the M.S. degree in Behavior Analysis must earn a minimum of 36 semester credit hours. Students will take a comprehensive examination toward the end of their formal coursework. The examination may be repeated, but students must be registered for coursework at UTSA during the semester in which they take the exam.

Master of Science in Behavior Analysis Concentrations
The M.S. in Behavior Analysis has two areas of concentration, and students choose their concentration based on their academic and professional goals and interests. The curriculum for each concentration will be presented separately.

The Comprehensive concentration is designed to provide the research, academic, and practical training necessary for students to become certified as a Board Certified Behavior Analyst and licensed as a Licensed Behavior Analyst in the state of Texas. The program includes research training, coursework and field-based experiences related to behavior assessment, intervention, and professional issues. It contains all of the coursework required by the Behavior Analysis Credentialing Board. It also embeds the 2,000 experience hours through fieldwork, practice, and research experiences supervised by UTSA faculty. Students completing the comprehensive option will complete their hours at UTSA partner sites. This program prepares students to work in a variety of settings (e.g., clinical, home, community based, and schools), with a focus on serving people of all ages with developmental disabilities (e.g., autism spectrum disorder).

The Focused concentration also contains all of the coursework required by the Behavior Analysis Credentialing Board. However, this concentration embeds flexibility by allowing students to select up to 15 hours of elective coursework. The Focused concentration does not have any research or practical (e.g., fieldwork or practicum) requirements. Students in this sequence may also complete their experience hours during their program, however the site is typically chosen by the student. Although, the focused concentration does not have any research requirements, students are encouraged to discuss with their advisor if they are interested in research. Once students have begun coursework in the Focused concentration, they cannot transfer to the Comprehensive Program without approval by the ABA program coordinator. This will be assessed on a case-by-case basis.

Interested persons with questions regarding the difference between the two concentrations should contact the Student Development Specialist for the Educational Psychology program or check the website for more information.
The Applied Behavior Analysis certificate is designed to meet the needs of current and prospective students interested in developing basic skills in applied behavior analysis. The certificate is available to students who have been admitted as special students and seek the certificate independent of a degree as well as master's degree students. All students must apply and be accepted into the certificate program before counting any courses towards the certificate.

This certificate is designed to provide students with focused training in the area of applied behavior analysis. The certificate provides students with specialized skills in the application of behavior analysis to support the social communication, academic, and behavior needs of students. The certificate coursework provides students with a strong background in behavioral theory and principles as well as the skills to apply this learning to relevant contexts (e.g., clinic settings, hospital settings, home settings, and as consultants in educational settings). In addition, completion of the coursework linked with the certificate will meet most coursework requirements set forth by the Behavior Analyst Certification Board, Inc. (BACB (https://www.bacb.com/bcba/)®). Additional coursework is required to meet BACB® coursework requirements and students can complete these courses upon admission to the ABA Certificate Program.

The following departmental requirements are applicable to the Certificate in Applied Behavior Analysis:

- A bachelor's degree from an accredited university.
- A minimum grade point average (GPA) of 3.0 for the last 30 hours of coursework.
- To maintain enrollment in the certificate program, students should maintain a 3.0 GPA throughout their tenure in the program.

**Criminal History Policy and Acknowledgement**

The College of Education and Human Development (COEHD) prepares educators and professionals for fields which require fieldwork, internship, practicum, service-learning and/or clinical teaching. Placements occur in educational, clinical, health care facilities, hospital, and/or medical settings which require a criminal background check. The University of Texas at San Antonio is required to inform you of the requirements set forth by the Texas Occupation Code, Chapter 53, Sections 53.001 through 53.105 (http://www.texas-statutes.com/occupations-code/chapter-53-consequences-of-criminal-conviction/).

All COEHD prospective students in a licensure or certification program are required to acknowledge that they have been made aware of these requirements and that they have read the COEHD Criminal History Policy. For more information and for completing the acknowledgement form, please visit the Office of Professional Preparation, Assessment, and Accreditation in the College of Education and Human Development.

**Certificate Program Requirements**

To meet the curricular requirements for the Graduate Certificate in Applied Behavior Analysis students must complete 15 semester credit hours with a grade point average of 3.0 or above from the following courses:

<table>

Elective coursework may also be determined based on the student's program of study and in consultation with assigned advisor. Students may elect to take courses from relevant departments throughout COEHD (e.g., including but not limited to Bilingual Bicultural Studies, Early Childhood Education, and Educational Psychology) and UTSA (e.g., including but not limited to Psychology, Sociology, and Public Policy). Students may opt to do a master's thesis and earn credits as part of their elective options.

Total Credit Hours 36

- Graduate Certificate in Applied Behavior Analysis (p. 7)
- Graduate Certificate in Language Acquisition and Bilingual Psychoeducational Assessment (p. 8)
- Graduate Certificate in Program Evaluation (p. 8)

**Graduate Certificate in Applied Behavior Analysis**

The Applied Behavior Analysis certificate is offered through the Department of Educational Psychology. Admission, advising, and review of academic progress are conducted through the Department of Educational Psychology. This 15-semester-credit-hour certificate in Applied Behavior Analysis is designed to meet the needs of current and prospective students interested in developing basic skills in applied behavior analysis. The certificate is available to students who have been
### Admission Requirements

- A bachelor's degree from an accredited university in an approved area of study (e.g., psychology, education), with current status as a student in a graduate-level psychology program, or
- A master's or doctoral degree from an accredited university in an approved area of study (e.g., school psychology, counseling psychology, clinical psychology) with completion of graduate-level coursework in academic assessment and cognitive assessment, or
- Current Educational Diagnostician Certificate
- Attainment of passing grade on a mandated Spanish proficiency test (e.g., designated university Spanish proficiency test, such as UTSA Assessment of Language Proficiency in Spanish [ALPS])

### Certificate Program Requirements

Requirements for completion include:

1. Completion of 15 graduate hours of approved UTSA coursework with a grade point average (GPA) of 3.0 or above
2. Completion of a language acquisition and bilingual psychoeducational portfolio
3. Maintain a 3.0 GPA throughout tenure in the program

### Graduate Certificate in Language Acquisition and Bilingual Psychoeducational Assessment

The LABPA certificate is offered through the Department of Educational Psychology (EDP) with support from the Department of Bicultural-Bilingual Studies (BBL). Both Departments reside in the College of Education and Human Development.

This 15-hour certificate in Language Acquisition and Bilingual Psychoeducational Assessment (LABPA) is designed to meet the needs of prospective students interested in developing skills in bilingual psychoeducational assessment and foundational knowledge in language acquisition and the bilingualism continuum, with an emphasis on Spanish-speaking English Language Learners (ELLs). The purpose is to increase the utilization of best practices in bilingual psychoeducational assessment based upon an understanding of language acquisition. Best practices incorporate knowledge of tests of cognitive and achievement abilities, tests of language proficiency, and bilingualism and language acquisition. The goal is to improve the educational experience, educational planning, provision of special education services, and overall well-being of ELL children, and youth in general.

#### Code | Title | Credit Hours
--- | --- | ---
EDP 6273 | Bilingual Psychoeducational Assessment | 9
EDP 6733 | Multicultural Assessment and Intervention | 9
EDP 6833 | Practicum in School Psychology | 9

**Total Credit Hours**: 15
lens of implementation science to the planned collection and analysis of data make these courses unique from most other research and statistics courses at UTSA. The CPE is offered through the Department of Educational Psychology in the College of Education and Human Development.

The Certificate in Program Evaluation allows non-degree-seeking students (e.g., professionals in the San Antonio community) as well as graduate students in COEHD and other Colleges to obtain recognition of advanced studies in Program Evaluation by completing a 15-semester-credit-hour course sequence. This certificate conforms to the training guidelines of the American Evaluation Association (AEA), which is the primary professional organization focusing on program evaluation training, supervision, and competencies.

**Admission Requirements**

Current degree-seeking students can apply for CPE admission through the Department of Educational Psychology.

Non-degree-seeking (i.e., certificate-only) students can apply for CPE admission through the Graduate School admissions process. Students can enroll in either Fall or Spring semesters following admission to the program. Regular admission deadlines and procedures apply.

All applicants must meet/fulfill the following departmental requirements:

1. Have earned a baccalaureate degree from a regionally accredited institution in Education, Psychology, Public Administration, Economics, Sociology, or related field
2. Provide official transcripts for all undergraduate and graduate schools attended, regardless of whether a degree was received
3. Have had a grade point average (GPA) of at least 3.0 (on a 4.0 scale) in the last 30 hours of their baccalaureate degree program coursework and all graduate coursework
4. Provide a current résumé or curriculum vita
5. Provide a personal statement describing her/his interest in pursuing a Graduate Certificate in Program Evaluation, including discussion of ultimate plans for using the certification professionally, as well as any prior formal or informal experiences in program evaluation
6. Provide the names and contact information of two individuals who have agreed to serve as personal references for the candidate and who can address the candidate’s potential for success in the CPE. For those who have been in the workforce for an extended period of time, these referees may be other professionals who have served in a supervisory capacity, although it is preferable to include at least one academic reference.

**Academic Standing**

All current degree-seeking students seeking admission to the Certificate in Program Evaluation must be in good academic standing (i.e., GPA of 3.0 or above) within their departments. Non-degree-seeking applicants must have been in good academic standing (i.e., GPA of 3.0 or above) at the institution from which they earned their bachelor’s degree and the institution from which they request to transfer graduate coursework as substitutes for either foundation courses. Those institutions must be regionally accredited.

Based on deficiencies or concerns by the CPE Program regarding any of the information provided (items 1-6 above), applicants may be denied admission to the CPE. Assessments by CPE faculty or field/practicum supervisors also may result in dismissal of candidates from the program, if there is sufficient evidence to suggest that the candidate may engage in unprofessional behavior or improper implementation of program evaluation methods.

Each course in the certificate course sequence will be offered once per academic year. Students may consult with the Certificate in Program Evaluation (CPE) Coordinator to see if coursework and/or practicum or internship courses from other departments or programs could be substitutes for either foundational coursework or practicum required for the CPE certificate.

**Certificate Program Requirements**

Requirements for completion include:

1. Completion of 15 graduate hours of approved UTSA coursework with a grade point average (GPA) of 3.0 or above
2. Maintain a 3.0 GPA throughout tenure in the program

**Educational Psychology (EDP) Courses**

**EDP 5003. Psychological Learning Theories. (3-0) 3 Credit Hours.**

There are two different versions of this course. The General version provides a current and comprehensive overview of theory and research related to learning. It covers topics such as behaviorism, social cognitive theory, information processing, constructivism, and motivation, and explores applications of learning principles in multiple contexts including classroom and virtual learning environments. The General version is appropriate for students in all areas of graduate study. The Applied Behavior Analysis version of EDP 5003 covers the same broad topics, but includes more of a behavioral focus (e.g., by comparing and contrasting behaviorism with other theoretical approaches to learning). The ABA version is taught by an instructor approved by the Behavior Analysis Certification Board, and thus is appropriate for students pursuing the Board Certified Behavior Analyst credential. Students should check the notes in the class schedule to make sure they are registering for the appropriate section of EDP 5003. Course Fees: GH01 $90; LRH1 $20; STSH $30.
EDP 5033. Human Development Across the Life Span. (3-0) 3 Credit Hours.
Provides comprehensive overview of relevant research and theoretical frameworks of human development across the life span. Topics include cognitive, social, emotional, and sociocultural development as it exists in various contexts including schools, communities and families. Appropriate for students in all areas of graduate study. Course Fees: GH01 $90; LRH1 $20; STSH $30.

EDP 5043. Basic Behavior Analysis. (3-0) 3 Credit Hours.
The purpose of this course is to develop competence in understanding how principles of behavior are discovered and described in the context of basic research. The class provides an overview of basic behavioral processes in the context of both human and non-human learning. There is a focus on the experimental analysis of behavior and critical analysis of research. Course Fees: GH01 $90; LRH1 $20; STSH $30.

EDP 5053. Psychosocial Contexts of Education. (3-0) 3 Credit Hours.
This course examines the role and sociocultural context of America’s public education system. Students are challenged to critically deconstruct the primary goals of schooling through scholarly inquiry, debate, and discussion. The course is available to students from diverse disciplines including education, psychology, sociology, leadership, and policy. Throughout the course, students are encouraged to develop critical thinking and writing skills that can be applied within their chosen area of study. Course Fees: GH01 $90; LRH1 $20; STSH $30.

EDP 5303. Educational Measurement and Assessment. (3-0) 3 Credit Hours.
Introduces the study of assessment and measurement, including classical test theory, principles of psychological and educational measurement (including methods of establishing evidence for reliability and validity), statistical and psychometric concepts, the development and selection of assessment instruments related to a range of psychological constructs, and techniques for interpreting and communicating evaluation results. (Formerly titled “Principles and Techniques of Evaluation.”) Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 5493. Field Experience in Behavior Analysis. (3-0) 3 Credit Hours.
Prerequisite: EDP 5503 or consent of instructor. The purpose of this course is to develop skill in professional practice or research. This course will provide students with the opportunity to participate in supervised field-based applied research experiences in approved hospital, home, educational, or clinical settings. Emphasis is on orientation to behavior analysis in applied settings, learning the role of a behavior consultant within larger systems, implementations and evaluation of behavioral interventions for students struggling with problem behaviors. May be repeated for up to 6 hours of credit. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 5503. Introduction to Behavior Analysis. (3-0) 3 Credit Hours.
This course presents an introduction to concepts and principles of behavior analysis to develop students’ competence in the use of technical terminology. As an introductory course to behavior analysis, special attention will be paid to philosophy, terminology, and methods in behavior analysis. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 5603. Psychology of Human Motivation. (3-0) 3 Credit Hours.
Prerequisite: Graduate standing or permission of the instructor. Explores the study of human motivation from a variety of perspectives including educational, psychological and sociocultural. The goal of the course is to help students from diverse disciplinary backgrounds (e.g., counseling, education, health, leadership, psychology, sociology, sports) to develop foundational understandings of human motivational processes applied to diverse contexts and populations. Course Fees: GH01 $90; LRH1 $20; STSH $30.

EDP 5633. Interventions and Supervision in Behavior Analysis. (3-0) 3 Credit Hours.
Prerequisites: EDP 5503, EDP 6223, and EDP 6263 or consent of the instructor. The purpose of this course is to develop competency in the application of principles of behavior and multiple areas of investigation and practice. The course will provide students with the opportunity to acquire knowledge about evidenced-based instructional practices based on the principles of behavior analysis. Students will have the opportunity to learn to design appropriate interventions, how to apply those interventions, and to make decisions based on student data to inform future instructional practices. Students will also learn how to supervise from a behavior-analytic perspective and manage the implementation of interventions by others. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 5643. Verbal Behavior. (3-0) 3 Credit Hours.
The purpose of this course is to develop competencies in the application of principles of behavior and multiple areas of investigation and practice. An advanced graduate course on the analysis of the verbal behavior of the proficient speaker and listener, and the biological, environmental, and motivational factors affecting it. Structural and developmental issues, as well as implications for language training and remediation are integrated throughout. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 5783. Practicum I in Applied Behavior Analysis. (3-0) 3 Credit Hours.
Prerequisites: EDP 5503, EDP 6223, and EDP 5493 (or equivalent) or consent of instructor. The purpose of this course is to develop skills in professional practice or research. This course will provide the students with the opportunity to acquire knowledge about the application of theoretical principles to field settings. Students are required to develop, implement, and evaluate behavioral assessments and interventions for individuals with disabilities. This course requires fieldwork outside of the classroom. May be repeated for up to 6 hours of credit. Course Fees: GH01 $75; INT1 $150; LRH1 $10; SPS1 $42; STSH $18.

EDP 5893. Practicum II in Applied Behavior Analysis. (3-0) 3 Credit Hours.
Prerequisites: EDP 5503, EDP 6223, and EDP 5493 (or equivalent) or consent of instructor. The purpose of this course is to develop skill in professional practice or research. This course will provide the students with the opportunity to acquire knowledge about the application of theoretical principles to field settings. The student works in educational settings to plan, implement, and evaluate appropriate experiences with individuals exhibiting emotional and/or behavior problems. May be repeated for up to 6 hours of credit. Course Fees: GH01 $90; INT1 $150; LRH1 $20; SPS1 $42; STSH $30.
EDP 6033. Legal, Ethical, and Professional Issues in School Psychology. (3-0) 3 Credit Hours.
Prerequisite: Admission to the School Psychology program. Review of historical foundations of school psychology; legal, ethical, and credentialing issues in school psychology; scholarly writing and library research skills; models of psychological service delivery; professional role and function of the school psychologist; professional standards and organizations in school psychology. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6035. Bilingual Psychoeducational Assessment. (3-0) 3 Credit Hours.
Prerequisite: EDP 5503 or equivalent. Course examines practice in bilingual psychoeducational assessment. Students will have the opportunity to learn about: ethical, legal, and professional issues in bilingual assessment; theories of second language acquisition and language proficiency development and assessment; best practices in the use of interpreters in assessment; measurement of academic achievement via multiple approaches; and measurement of cognitive abilities via multiple approaches. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.
EDP 6293. Consultation in the Schools. (3-0) 3 Credit Hours.
Prerequisites: EDP 6103 and EDP 6203. Examines the role of consultation with school personnel and families within the practice of school psychology. Major theoretical models of consultation with an emphasis on an integrated Model of School Consultation, specific approaches to service delivery, and ethical issues related to consultation in the schools are discussed. This course also includes methods of evaluating consultation outcomes at the individual student, systems, and program levels. Requires service-learning hours and the application of theoretical and conceptual foundations to consultation case studies. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6303. Program Evaluation I. (3-0) 3 Credit Hours.
Prerequisites: EDP 6103 and EDP 6203. This course is the first part of a year-long sequence that introduces students to research design and data analysis in the context of evaluation. Students will learn about the history, professional standards, theories, and methods of program evaluation. This course examines principles and techniques needed to develop appropriate data collection and management strategies in alignment with evaluation questions. Students will also have hands-on practice with computer programs to build basic skills in organizing, managing, and analyzing evaluation data. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6313. Program Evaluation II. (3-0) 3 Credit Hours.
Prerequisites: EDP 6103, EDP 6203, and EDP 6303. This course is the second part of a year-long sequence that introduces students to research design and data analysis in the context of evaluation. This course reviews the principles, merits, limitations, and applications of various quantitative methodologies for analyzing evaluation data. Students will also have hands-on practice with computer programs to build practical skills in conducting, interpreting, and reporting quantitative evaluation research. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6333. Practicum in Program Evaluation. (3-0) 3 Credit Hours.
Prerequisites: Completion of Practicum Form indicating required coursework (i.e., EDP 6103, EDP 6203, EDP 6303, and EDP 6313) has been completed, and consent of instructor. Practicum in Program Evaluation is a one-semester supervised practical application course in which students work alongside evaluation practitioners in a professional setting to gain first-hand understanding of how to apply the theories, methods, and skills learned in prior classes. Settings might include educational institutions, government agencies, human service organizations, and for-profit and non-profit evaluation firms. Placements may be with internal or external evaluation entities. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6343. Social Emotional Assessment in the Schools. (3-0) 3 Credit Hours.
Prerequisites: EDP 5303 and EDP 6243. Theory and application and administration and scoring of specific instruments and techniques involved in social emotional and psychological assessment in the schools is emphasized. Additionally emphasis is on analysis, interpretation, and integration of intelligence, achievement, emotional, behavioral, and personality assessment results for diagnostic and treatment planning. Psychological report writing is required. (Formerly EDP 6323. Credit cannot be earned for both EDP 6323 and EDP 6343.) (Formerly titled "Advanced Psychological Assessment"). Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6403. Ethics for Applied Behavior Analysis. (3-0) 3 Credit Hours.
The purpose of this course is to prepare students to understand legal constraints and ethical guidelines as pertinent to behavioral research and practice. This course is designed to teach ethical and professional conduct considerations in applied behavior analysis. This course follows the BACB® professional and ethical compliance code and is intended for students preparing to become and who are certified behavior analysts. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6443. Capstone Class in Behavior Analysis. (3-0) 3 Credit Hours.
Prerequisites: EDP 5503, EDP 6223, EDP 6263, EDP 5633, EDP 5643, or consent of instructor. Students in this course will engage in a number of professional development activities with the goal of preparing students for the Behavior Analysis Certification Exam and their future as a Behavior Analyst. The class is focused on professional development (e.g., mock interviews and development of curriculum vitae), portfolio building activities (e.g., completion of research competencies and professional presentation) and exam preparatory exercises. At the conclusion of this class and all class assignments/competencies, students will be eligible to schedule their comprehensive examination. Course Fees: GH01 $90; LRH1 $20; STSH $30.

EDP 6463. Professionalism and Ethics for Practitioners. (3-0) 3 Credit Hours.
Prerequisite: Completion of EDP 5503 and EDP 5783 or approval by ABA program coordinator. This course is an introduction to the Behavior Analyst Certification Board’s Professional and Ethical Compliance Code, related disciplinary systems, and professionalism in the practice of applied behavior analysis. Special emphasis is placed on the ethics underlying practices for supporting individuals with disabilities, and related cultural considerations. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6643. Child and Adolescent Psychopathology. (3-0) 3 Credit Hours.
Prerequisite: EDP 5033 or equivalent. This course uses the DSM classification system to discuss major emotional and behavioral disorders experienced by nonadult populations. Current state of knowledge with regard to the characteristics, etiological factors, and developmental outcomes of psychological disorders of childhood and adolescence will be considered. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6703. Clinical Neuropsychology. (3-0) 3 Credit Hours.
Prerequisites: EDP 5303, EDP 6243, and EDP 6833. Review of brain-behavior relationships and biological substrates of behavior; physiological bases of neuropsychological constructs such as executive function, attention, perception, memory, learning, emotions, and behavior; review of selected neurobehavioral and genetic disorders in children, with emphasis on cognitive, behavioral, and emotional sequelae of these disorders. Includes coverage of relevant neuropsychological assessment methods. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6733. Multicultural Assessment and Intervention. (3-0) 3 Credit Hours.
Prerequisites: EDP 5303, EDP 6643, and EDP 6833. This course provides theory and research related to psycho-educational and function based assessment and intervention with diverse populations. Structured as a seminar, discussions include professional issues, trends, testing and assessment issues, and advancements in intervention and techniques with diverse populations. The development of cultural competence and exposure to culturally responsive practices in the schools is emphasized. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.
EDP 6833. Practicum in School Psychology. (3-0) 3 Credit Hours.
Prerequisites: Completion of Practicum Form indicating required coursework has been completed, and consent of instructor. Supervised field-based experience in approved public school and mental health settings in school psychology. Supervision provided by on-site supervisors and university faculty. Emphasis is on orientation to school settings; learning the role of the school psychologist within the larger school and system context; evaluation of psychological and academic difficulties; consultation with parents and teachers; and direct counseling interventions with students. May be repeated for up to 6 hours credit. Course Fees: GH01 $90; INT1 $150; LRH1 $20; SPS1 $42; STSH $30.

EDP 6943. Internship in School Psychology. (0-0) 3 Credit Hours.
Prerequisites: Completion of Internship Form indicating required coursework has been completed, and consent of instructor. Full-time, supervised field-based experience in approved professional employment settings in school psychology. Supervision provided by on-site supervisors and university faculty. Students will complete a minimum of 600 clock hours of clinical work per semester, during which they will integrate and apply knowledge gained through coursework and begin to develop a professional identity. Can be taken only when all other required coursework in the School Psychology master's program has been completed. May be repeated for up to 6 hours credit. Course Fees: GH01 $90; INT1 $150; LRH1 $20; SPS1 $42; STSH $30.

EDP 6951. Independent Study. (0-0) 1 Credit Hour.
Prerequisites: Graduate standing and permission in writing (form available) from the instructor and the student's Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the Master's degree. Course Fees: GH01 $30; STSH $10.

EDP 6953. Independent Study. (0-0) 3 Credit Hours.
Prerequisites: Graduate standing and permission in writing (form available) from the instructor and the student's Graduate Advisor of Record. Independent reading, research, discussion, and/or writing under the direction of a faculty member. For students needing specialized work not normally or not often available as part of the regular course offerings. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the Master's degree. Course Fees: GH01 $30; STSH $30.

EDP 6961. Comprehensive Examination. (0-0) 1 Credit Hour.
Prerequisite: Approval of the Graduate Program Committee to take the Comprehensive Examination. Independent study course for the purpose of taking the Comprehensive Examination. May be repeated as many times as approved by the Graduate Program Committee. Enrollment is required each term in which the Comprehensive Examination is taken if no other courses are being taken that term. The grade report for the course is either "CR" (satisfactory performance on the Comprehensive Examination) or "NC" (unsatisfactory performance on the Comprehensive Examination). Course Fees: GH01 $30; STSH $10.

EDP 6973. Special Issues. (3-0) 3 Credit Hours.
Prerequisite: Consent of instructor. An organized course offering the opportunity for specialized study not normally or not often available as part of the regular course offerings. Special Issues courses may be repeated for credit when topics vary, but no more than 6 hours, regardless of discipline, will apply to the Master's degree. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 6983. Master's Thesis. (0-0) 3 Credit Hours.
Prerequisite: Permission of the Graduate Advisor of Record and thesis director required. Thesis research and preparation. May be repeated for credit, but no more than 6 hours will apply to the Master's degree. Credit will be awarded upon completion of the thesis. Enrollment is required each term in which the thesis is in progress. Course Fees: GH01 $90; STSH $30.

EDP 6991. Independent Study in School Psychology Internship. (0-0) 1 Credit Hour.
Prerequisite: Consent of instructor. Corequisite: EDP 6943. Independent reading, research, and/or writing under the direction of a faculty member. This Independent Study is restricted to students currently enrolled in Internship in School Psychology, and may involve the detailed analysis of a critical problem, issue, or research question related to the professional practice of School Psychology. May be repeated for credit, but no more than 6 hours, regardless of discipline, will apply to the Master's degree. Course Fees: GH01 $30; SPS1 $42; STSH $30.

EDP 7033. History and Systems of Psychology. (3-0) 3 Credit Hours.
Prerequisite: Consent of instructor. This course provides a historical examination of psychology's antecedents in philosophy and physiology, early systems of psychology, the development of psychology as a profession and of major professional conventions, the rise of evidence-based practice, and multicultural diversity in the practice of psychology. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7043. Systems Consultation and Prevention Science. (3-0) 3 Credit Hours.
This course provides a historical examination of school and systems consultation following the evolution of consultation in contemporary school settings. Theory, research and practice in prevention science with an emphasis on individuals from birth to age 21; understanding and application of theories and methods of prevention science. Needs Assessment, System readiness, resource mapping, and leadership development will be discussed. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7103. Multivariate Statistics. (3-0) 3 Credit Hours.
Prerequisite: EDP 6103 and EDP 6203, or consent of instructor. This course introduces students to statistical methods that consider several variables at once. Emphasis will be given to the applications of multivariate methods to data sets in education, psychology, and social sciences. Students will develop foundational knowledge as to how multivariate methods work, they will be able to apply these methods using computer software (e.g., SPSS, R, Stata), and they will be able to make inferences on from the results of multivariate statistical analyses. Understanding of linear regression is assumed for this course. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7203. Hierarchical Linear Modeling. (3-0) 3 Credit Hours.
Prerequisite: EDP 6103 and EDP 6203, or consent of instructor. This course offers an overview of the theories and use of hierarchical linear models. Students will learn the techniques of hierarchical linear models and apply the methods to multilevel data in education, psychology, and social sciences. Topics covered include multilevel analyses, random intercept and slope models, 2- and 3-level models, hypothesis testing, model assessment, longitudinal (repeated measures) data, and generalized hierarchical models for categorical variables. Understanding of linear regression is assumed for this course. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.
EDP 7213. Supervision and Teaching in Psychology. (3-0) 3 Credit Hours. 
Prerequisite: Consent of instructor. Introduction to knowledge and skills necessary for effective supervision and teaching in psychology. Students will be required to engage in supervision and teaching experiences to demonstrate competency in skill acquisition. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7303. Research Evaluation in the Behavioral Sciences. (3-0) 3 Credit Hours.
This course provides students with knowledge to develop skills in synthesizing and evaluating the methodological soundness of behavioral science research. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7313. Advanced Analysis for Single-Case Experiments. (3-0) 3 Credit Hours.
Prerequisite: EDP 7303. This course covers methods for analyzing data from single-case experiments (e.g., multiple baseline, reversal, and alternating treatment studies) including applications of visual analysis, effect size estimation, and meta-analysis. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7323. Competitive Grant Writing and Development. (3-0) 3 Credit Hours.
This course is designed to provide students with the knowledge and skills to perform one of the most critical functions for any academic, public, or nonprofit sector agency: gaining funds through proposals. Students learn how to find a funding source among various funders and how to plan and write a proposal. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7343. Advanced Applied Behavior Analysis. (3-0) 3 Credit Hours.
This course is an advanced study of applied behavior analysis. The content of the course is related to principles and advanced concepts in applied behavior analysis. Students learn how to gather information about an advanced topic and how to present that information to others. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7403. Prevention and Intervention with At-Risk Families. (3-0) 3 Credit Hours.
Prerequisite: Consent of the instructor. The purpose of this course is to provide educational practitioners and related personnel with the conceptual and theoretical foundation for understanding the nature and impact of systemic barriers and exposure to childhood risks in literacy, physical, and mental health development of vulnerable, at-risk families and their young children within a developmental framework. Professional psychology’s and education’s response to these factors, including intervention, is also examined. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7413. Bilingual Special Education. (3-0) 3 Credit Hours.
The purpose of this course is to provide educational practitioners and related personnel with the knowledge and skills needed for understanding and working with bilingual populations within the special education context. Students learn theory, policy, and practice important to bilingual populations’ linguistic and educational programming needs. Major theories of second language acquisition processes will be learned along with bilingual instructional paradigms and learning needs. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7603. Longitudinal Data Analyses. (3-0) 3 Credit Hours.
Prerequisite: EDP 6103 and EDP 6203, or consent of instructor. This course covers statistical models for drawing scientific inferences from continuous and discrete longitudinal data in education, psychology, and social sciences. Topics include longitudinal study design; exploring longitudinal data; linear and generalized linear regression models for correlated data, including marginal, random effects, and transition models; and handling missing data. Understanding of linear regression is assumed for this course. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7613. Item Response Theory. (3-0) 3 Credit Hours.
Prerequisite: EDP 5303 or consent of instructor. This course introduces concepts, theory, and application of item response theory (IRT) in educational and psychological fields with computer applications for data analysis. Topics include one-, two-, and three-parameter models; item and test information functions; test characteristics curves; test design; item fit and selection; tests for unidimensionality and model fit; IRT equating; adaptive testing strategies; item banking; and Bayesian, maximum likelihood, and EM estimation. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7623. Advanced Psychological Measurement. (3-0) 3 Credit Hours.
Prerequisites: EDP 5303, EDP 6103, and EDP 6203. This course covers advanced concepts in psychometric theory, test construction, item analysis, norms, reliability, validity studies, and professional standards for test development. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7633. Structural Equation Modeling. (3-0) 3 Credit Hours.
Prerequisite: EDP 6103 and EDP 6203 or consent of instructor. This course introduces the basic theoretical background necessary for the application of Structural Equation Modeling (SEM) using computer software (e.g., Mplus, Stata, and R) and data in education, psychology, and social sciences. Topics include model specification, identification, path analysis, estimation, testing fit, respecification, confirmatory factor analysis and issues concerning the interpretation of SEM results. Understanding of linear regression is assumed for this course. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7643. Qualitative Research Methods in Educational Psychology. (3-0) 3 Credit Hours.
This course covers basic concepts of qualitative research methods including qualitative designs (e.g., case studies, ethnographies), data collection approaches (e.g., observations, interviews, document analyses) and approaches to qualitative coding techniques (e.g., discourse analysis, grounded theory analysis). Students will learn both how to conduct and evaluate qualitative research. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7783. Special Topics in Educational Psychology. (3-0) 3 Credit Hours.
Prerequisites: Doctoral standing and consent of instructor. An organized course offering the opportunity for specialized study not normally or often part of the regular course offerings. Special Topics courses may be repeated for credit when topics vary, but not more than 6 hours will apply to the Doctoral degree. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.
EDP 7833. Advanced Practicum. (3-0) 3 Credit Hours.
Prerequisite: Consent of instructor. Appropriate for advanced students in educational psychology programs, this course will include instruction and supervision of fieldwork in a variety of possible settings. Content and requirements will vary based on students' previous coursework and professional goals. May be repeated for up to 6 hours credit. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7943. Doctoral Internship in School Psychology. (0-0) 3 Credit Hours.
Prerequisites: Completion of Internship Form indicating required coursework has been completed, and consent of instructor. Full-time, supervised field-based experience in approved professional employment settings in school psychology. Supervision provided by on-site supervisors and university faculty. Students will complete a minimum of 750 clock hours of clinical work per semester, during which they will integrate and apply knowledge gained through coursework and begin to develop a professional identity. Can be taken only when all other required coursework in the School Psychology doctoral program has been completed. May be repeated for up to 6 hours credit. Course Fees: GH01 $90; LRH1 $20; SPS1 $42; STSH $30.

EDP 7991. Doctoral Dissertation. (0-0) 1 Credit Hour.
Prerequisites: Admission to candidacy for the Doctoral degree and consent of student's Graduate Advisor of Record. Dissertation research and preparation. May be repeated for credit, but no more than 9 hours will apply to the doctoral degree. Credit will be awarded upon completion of the dissertation. Course Fees: GH01 $30; STSH $10.

EDP 7993. Doctoral Dissertation. (0-0) 3 Credit Hours.
Prerequisites: Admission to candidacy for the Doctoral degree and consent of student's Graduate Advisor of Record. Dissertation research and preparation. May be repeated for credit, but no more than 9 hours will apply to the doctoral degree. Credit will be awarded upon completion of the dissertation. Course Fees: GH01 $90; STSH $30.
