Common Course Numbering

UTSA is a participant in the Texas Common Course Numbering System (TCCNS). This system provides a standard set of course descriptions to aid in the transfer of lower-division academic courses among colleges and universities in Texas. Most community colleges in Texas have adopted the TCCNS as their course numbering system; others cross-reference their courses with the TCCNS. Common courses are identified in the UTSA Undergraduate Catalog by a common TCCNS designation composed of a four-character discipline identifier and a four-digit course number.

Course Numbering System

All courses are designated by four-digit numbers following a two- or three-letter abbreviation of the subject of the course. The first digit indicates the level of the course. Courses beginning with “0” are developmental education courses and may not be counted toward a degree. Courses beginning with “1” or “2” are lower-division (freshman and sophomore level). Courses beginning with “3” or “4” are upper-division (junior and senior level). Courses beginning with a “5” or higher are graduate-level courses.

The second and third digits in the course numbers are used within the colleges by each department to distinguish individual courses. The fourth digit indicates the semester-credit-hour value of each course.

The number of lecture and laboratory contact hours per week are provided in parentheses in the course description sections of the Undergraduate Catalog (http://catalog.utsa.edu/undergraduate/) and Graduate Catalog (http://catalog.utsa.edu/graduate/) immediately following the course number and title. For example, (3-0) indicates three hours of lecture and zero hours of laboratory per week.

Distance Learning Courses

Online courses and programs are offered and supported by individual UT institutions participating in Finish@UT, previously the UT Online Consortium (UTOC). UTSA participates as a host school at the graduate level. Degree-seeking graduate students taking courses through this system, that are not hosted by UTSA, must still meet all UTSA residence requirements. The Finish@UT website (https://utsystem.edu/finish/) is the central data hub for Finish@UT students. Students should check with their academic advisors to ensure that enrollments in Finish@UT courses will satisfy their degree requirements. For more information, visit the Finish@UT website (https://utsystem.edu/sites/ut-online-consortium/).

Extended Education Courses

The Office of Extended Education develops and presents seminars, online courses, conferences, and programs for the general public, professionals, governmental agencies, and businesses. It also provides specialized training to businesses, government agencies, and nonprofit organizations needing customized programs for their employees. These courses are not offered for academic credit. For information, contact the Office of Extended Education (http://utsa.edu/ee/).

Independent Study Courses

No more than six hours of independent study courses or directed research, regardless of discipline, will apply toward a degree. Specifically, for baccalaureate degrees, no more than a total of six hours of independent study courses will apply to a major and a minor, to a double major, or to concurrent degrees.

Internet Access to Course Information and Syllabi

Information on undergraduate classroom courses offered for credit by the University, including course syllabi and faculty curriculum vitae for each instructor, can be found on the UTSA Bluebook website (https://bluebook.utsa.edu/).

Prerequisites

Undergraduate Students

Prerequisites are stated for many courses listed in the UTSA Undergraduate Catalog. Prerequisites advise students of the background expected of all students in the course. It is the student's responsibility to be sure that all prerequisites are met before enrolling in any course. The prerequisites for courses are those listed in the current undergraduate catalog.

The UTSA automated registration system through ASAP will screen for designated prerequisites on all courses. Students are expected to access the prerequisite course lists through the relevant UTSA website, as advertised on ASAP Schedule of Classes, prior to registering for the courses to ensure that prerequisites have been completed appropriately or are currently in progress.

Under the following conditions, students may request permission from academic advisors, department chairs, associate deans, and/or instructors to register without the specified prerequisite in progress, completed, or posted in the UTSA student record system:

- Students who have prerequisites in progress at other institutions by providing proof of course registration at the other institution
- Students who have completed the prerequisite course with a less than required grade and are repeating the prerequisite course (course is “in progress”)
- Students who have completed the prerequisite course from another institution and the course has not yet been evaluated
- Students who have received substitution approvals

Students who do not meet the above requirements may be dropped from the requisite courses.

Students who have registered for the requisite courses with the prerequisites currently in progress will be reviewed for satisfactory completion at the end of Fall and Spring Semesters and Summer Terms.
If prerequisites are not completed satisfactorily, the requisite registered courses will be deleted from their schedules. Students will be notified of this deletion through their myUTSAmail electronic mail accounts (or the preferred e-mail account they designated in ASAP).

Some courses require that a prerequisite for the course be completed with a grade of "C-" or better. A prerequisite for such a course completed with a grade of "CR", Credit, is deemed to have met the prerequisite requirement for the course.

**Graduate Students**

Prerequisites are stated for many courses listed in the UTSA Graduate Catalog (http://catalog.utsa.edu/graduate/). Prerequisites advise students of the background expected of all students in the course. It is the student's responsibility to be sure that all prerequisites are met before enrolling in any course. When a student has not met the specific prerequisites listed, he or she may, under special conditions, obtain permission to register from the instructor of the course. Some colleges may also require the permission of the Department Chair and the Associate Dean. Students who do not meet prerequisites for a course and do not have the appropriate permissions to register may be dropped from the course.
