COST OF ATTENDANCE

The Cost of Attendance (COA) is determined by the Student Financial Aid and Enrollment Services office each year and is based on the average costs a student will incur for each semester. Included in the COA are average tuition and fee costs, a book allowance, a room and board allowance (on-campus, off-campus and at-home), transportation and personal/miscellaneous expenses. See information located on the UTSA One Stop Enrollment website for the components of the various Cost of Attendance budgets as well as financial aid opportunities at UTSA.
